

# THE SPACE SAVING DRYER

...designed to fit into the most modest budget!

## MD 8

The **MD-8** is a compact, powerful gas fired dryer designed to cure a wide variety of substrates. The **MD-8** has many of the same terrific features as the **AirJet**, with a space saving footprint and a price that fits into even the most modest budget. Only the **MD-8** offers our patented Air Deflector recycling system which re-circulates heated air through the heat chamber. The Interchange air nozzle heat distribution is a feature found only on dryers which cost much more.

### STANDARD FEATURES

- o Air Deflector re-circulating system
- o Powerful 250,000 BTU stainless steel burner
- o Higher velocity jet nozzles for better air distribution
- o Enlarged heat plenum for maximum air velocity
- o High temp self tracking belt
- o Standard 8' oven section
- o Slide out E-Z clean filter drawer
- o Side access clean out door
- o Easy access controls
- o ETL and CE approved
